

# Introducing our chilled packaging offering

Are you developing new products and ideas in dairy, juice, or other types of chilled liquid foods and beverages, or simply looking to improve or add to your existing portfolio? Our chilled packaging solutions can help.

## Tetra Brik®

Simply smart.

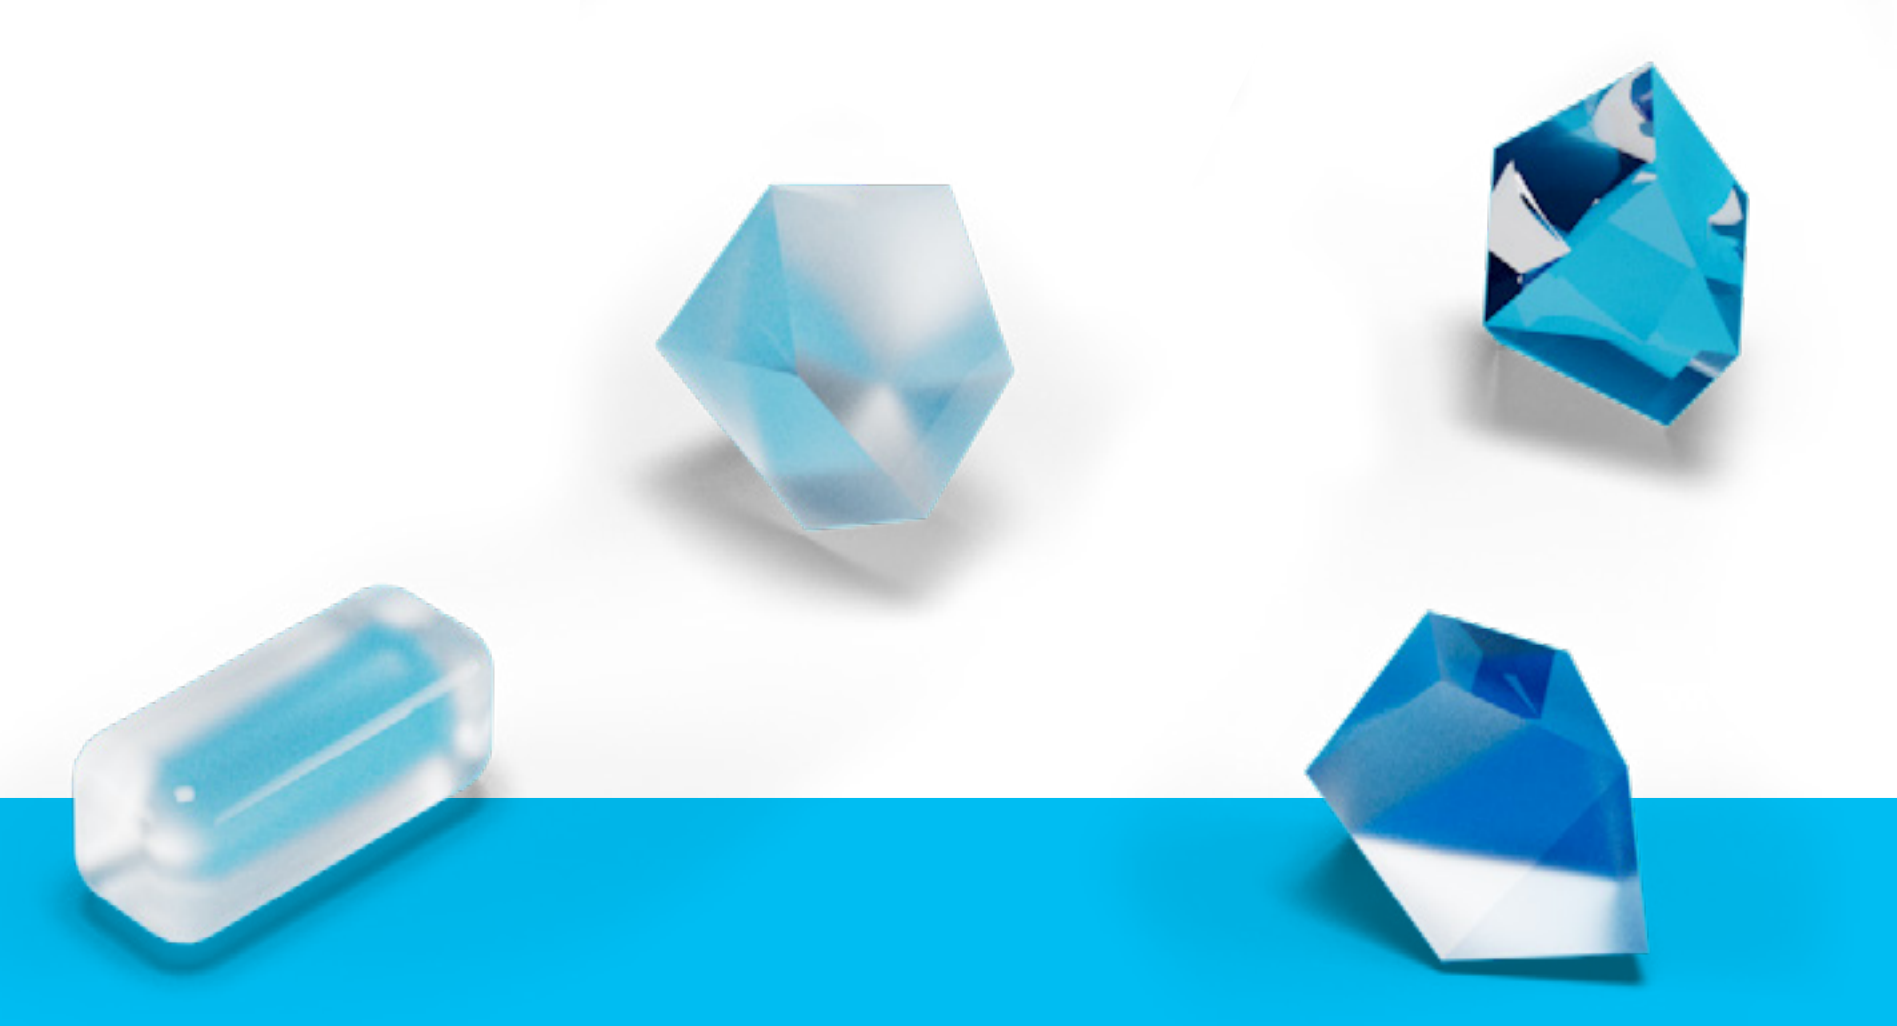

## Tetra Top®

Ahead of the curve.

## Tetra Rex®

The iconic pioneer.

CONSUMER BENEFITS		
<p>With a range of trusted, familiar formats, including innovative family packs, this is the smart, convenient choice that gives consumers great functionality and optimal pouring while standing out on the shelf. And with a range of environmental features available across the entire portfolio, it meets consumers' sustainability concerns too.</p>	<p>Striking the perfect balance between premiumness and sustainability, this unique carton bottle for chilled products gives consumers great on-the-go portability and functionality in a comprehensive range of shapes and sizes.</p>	<p>A broad range of shapes, volumes, and closures means this iconic design for chilled products suits every at-home occasion imaginable. And, as the world's first fully renewable package, it meets consumers' growing interest and concern around sustainability.</p>
