

BEVERAGE CARTONS

– A SUSTAINABLE CHOICE

MORE THAN 1 million tonnes of used beverage cartons (BC) are collected every year.

THE RECYCLED MATERIALS are used to make products like tissues, secondary packages, furniture and tiles.

160+

RECYCLERS around the world extract paper fibres, polymers and aluminium.

We are strengthening **PARTNERSHIPS** to increase and promote recycling.

We use more than 50% of renewable energy to **MINIMISE** our climate impact and increase renewable resources.

CARTONS SAVE SPACE reduce weight and improve transportation efficiency.

CIRCULARITY & RECYCLING

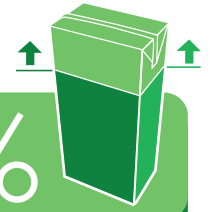

RESPONSIBLE SOURCING

RESOURCE-EFFICIENT MANUFACTURING

~70%

of a Tetra Pak® carton package by weight is paperboard.

MORE THAN 490 billion FSC™ labelled packages since 2007, 100% chain of custody since 2015.

COMMITTING TO an environmentally and socially sustainable aluminium sourcing with ASI since 2018.

asi

SERVICES PROVIDER to reduce waste, water, energy and climate impact.

We deliver efficient processing and packaging solutions to **HELP OUR CUSTOMERS REDUCE** CO₂ and costs.
