

IMPROVING FUNCTIONALITY

DAIRY PRODUCER IN CHINA

CHALLENGE

To analyse and optimise CIP station that had been running for sometime.

SOLUTION

By adding advanced CIP reports from Tetra PlantMaster Production Integrator, it was possible to get the information needed to perform a CIP optimisation.

RESULTS

- √ Reduced waste of CIP media
- √ Optimised use of water
- √ Cutting costs and reduced amount of downtime needed for cleaning
- √ Access to history about the CIP performance allowing for continuous improvement of the CIP stations
