

TETRA PAK® PLANT CARE WITH OPERATIONAL COST GUARANTEE

DAIRY PRODUCER IN ASIA

CHALLENGE

With a new flagship release coming up, the customer knew operational cost was too high, yet wanted to secure a successful introduction to the market.

SOLUTION

A comprehensive solution addressing both mechanical and operational performance of the equipment. Through this, we could secure a reliable production, increase the output, and reduce waste and overfilling, as well as committing to decrease the operational cost by 15 percent.

RESULTS

- ✓ Reduced operational cost by 20%
- ✓ € 1,6 mio in total savings
- ✓ Improved OEE from 40% to 60%
- ✓ Increased output from the equipment by 20%
- ✓ Reduced waste and overfilling
