Our ambitions, commitments and highlights

We made strong progress in advancing our commitments to protecting food, people and planet in 2020. Over the next pages we set out some of our most significant achievements of the past year.
Leverage new technologies, to continuously improve the safety and availability of our products, and support the communities where we operate.

Our ambitions is to make a positive impact along our value chain and to authentically communicate about our sustainability activities.

Food

**Supporting the UN SDGs**

**Food safety**
- Protecting food is at the heart of what we do. We work continuously on food safety. Period.

**Food availability**
- Our ambition is that people of all income levels have access to affordable and nutritious food everywhere in the world.

**Food loss and waste**
- Our ambition is to reduce food loss and food waste across the value chain.

**Responsibility and value chain**
- Our ambition is to make a positive impact along our value chain and to authentically communicate about our sustainability activities.

**OHS and wellbeing**
- Our ambition is that all individuals are free from harm during every project and activity, and supporting the communities where we operate.

**Diversity and inclusion**
- Our ambition is to maintain a truly diverse workforce, where every employee is respected, included, engaged and fully contributing.

**Transparency and active communication**
- Our ambition is to actively transparent across our value chain and to authentically communicate about our sustainability activities.

**Climate**
- Our ambition is to achieve ultimate stability through energy reduction and decarbonisation of our operations and products, as well as our full supply chain.

**Circularity and recycling**
- Our ambition is to secure and restore forests and make a positive impact on biodiversity.

**Biodiversity and forests**
- Our ambition is to make a positive contribution to global water resilience through water management across our operations and partnerships.

**Water**
- Our ambition is to make a positive contribution to global water resilience through water management across our operations and partnerships.

Our commitments

- Continue to deliver high-performance food processing and packaging solutions. That play a significant role in giving more people access to safe food.
- Protecting food is at the heart of what we do. We work continuously on food safety. Period.
- Our ambition is that people of all income levels have access to affordable and nutritious food everywhere in the world.

Our ambitions

- Our ambition is that all individuals are free from harm during every project and activity, and supporting the communities where we operate.
- Our ambition is to make a positive impact along our value chain and to authentically communicate about our sustainability activities.

Our commitments

- Continue to develop high-performance solutions, with the goal of reducing production food loss by 50% in the best practice lines we provide to our customers by 2030 (compared with 2000).
- Support customers in their journey to continuous improvement of the food system, through emerging and packaging solutions, that play a significant role in giving more people access to safe food.
- Continue to support customer operations through high production efficiency and fast food service.
- Continue to develop high-performance-food-processing and packaging solutions. That play a significant role in giving more people access to safe food.
- Our ambition is to make a positive impact along our value chain and to authentically communicate about our sustainability activities.

Food 2020 highlights

We expanded our Dairy Hub initiatives, including in Albania and Senegal, to provide support for 39,806 farmers, of which 98% – 38,937 – were smallholders.

Published Tetra Pak Index, a major global research study exploring consumer attitudes around food safety, food waste and the environment in the wake of the COVID-19 pandemic.

Worked in partnership to ensure 64 million children in 45 countries received milk or other nutritious beverages in Tetra Pak packages in their schools, despite the pandemic.

Tetra Pak® Tubular Heat Exchanger equipment first of its type to receive certification from the European Hygienic Engineering and Design Group (EHEDG).

Joined the European Alliance for Green Recovery, which highlights the central role of resilient food supply chains in building a more sustainable economy across Europe.

Worked in partnership with customers to guarantee continuity of safe food supplies throughout the COVID-19 pandemic.
Pursued a high level of worker safety and promoted mental wellbeing of all colleagues throughout the COVID-19 pandemic.

Ranked leader by CDP for fifth year running for environmental transparency and action.

Launched formal sustainability initiative, “Join us in protecting the planet”, calling on base materials suppliers to join us on our journey towards reducing GHG emissions in our supply chain by 50% by 2030.

Received “Great Place to Work” certification after pilot applications in four countries (achieving “Top Company” status in two of these).

Expanded our global diversity advisory panel and established a similar panel within each of our four regional clusters, increasing the number of colleagues involved to 65 from 15 in 2019.

Launched global Go nature. Go carton. communications campaign to foster debate and promote sustainable packaging.

Our ambitions, commitments and highlights
Announced a **net zero climate goal** and SBTi approved science-based targets across all scopes 1, 2 & 3

Technical validation with limited commercial launch of **first aseptic package with non-foil barrier.**

Launched **breakthrough low-energy equipment** line for processing juices and still drinks.

Led and implemented a wide range of activities across the recycling value chain in local markets around the world, contributing to **increased global carton package recycling rate of 27% in 2020.**

**Achieved our 2020 climate goal**, decoupling economic growth from GHG emissions across the full value chain, scope 1, 2, 3 (-19% versus 2010). Achieved an outstanding -70% GHG reduction in our own operations from 2010 to 2020, scope 1 and 2.

Introduced carbon reduced and carbon neutral package certification and labels with Carbon Trust and launched **Tetra Rex® Plant-based package** with **carbon neutral label** in Ireland, an industry first.
