

Protects What's Good™

Sustainability Report 2022

Business can be a catalyst for positive change, creating long-term value for society. With an ambition to lead the sustainability transformation, Tetra Pak has a responsibility to contribute to sustainable development and positive impact through our products and services.

Below you can read about our ambitions and some achievements from 2021.

Food systems

Ambition

Contribute to secure, resilient and sustainable food systems that provide access to safe, affordable, and nutritious food, and minimise food loss and food waste across our value chain.

Achievements

Driving dialogue and proposing solutions:

White paper on Building Resilient Food Systems

5+ collaborations with startup-ups to develop fortified and nutritious products and turn food waste into nutritious food

Nature

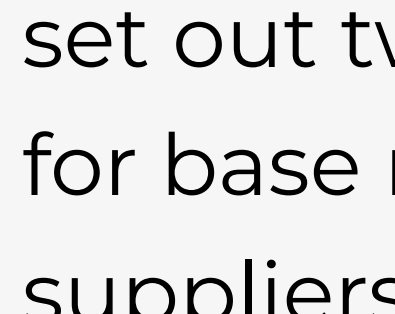

Ambition

Act for nature through responsible sourcing practices and strategic partnerships to conserve and restore biodiversity, mitigate and adapt to climate change and contribute to global water resilience.

Achievements

100% of paperboard sourced from FSC™ certified forests and other controlled sources

“Join Us in Protecting the Planet” environmental sustainability initiative set out twenty actions for base materials suppliers¹

7,000 hectares

of Atlantic Forest in Brazil to be restored by 2030

1. Base materials suppliers include suppliers for paperboard, plastics, plastic films, aluminum foil, and inks.

Climate

Ambition

Take action on mitigating climate change by decarbonising² our operations, products, and our value chain.

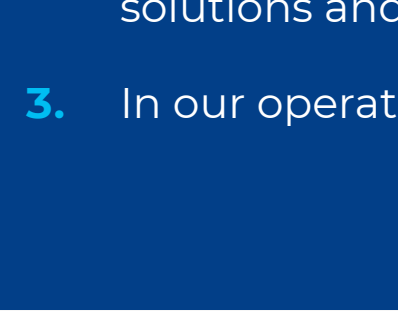

Achievements

80% renewable electricity in own operations

36% GHG emissions reduction³

Only company in the carton packaging sector to be included in the **CDP leadership band** for six years in a row

2. Our decarbonisation efforts focus on avoiding and mitigating GHG emissions correlated to our products and company, and carbon compensation to balance unavoidable residual emissions through nature-based solutions and other initiatives.

3. In our operational footprint (Scopes 1, 2 and business travel) compared to 2019 baseline.

Circularity

Ambition

Drive circular solutions by designing recyclable liquid food packaging, using recycled and renewable materials, and expanding collection and recycling to keep materials in use and out of landfills.

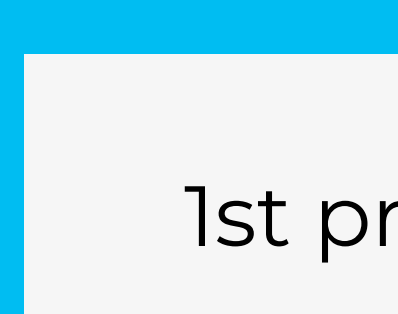

Achievements

17.6b plant-based packages and 10.8 billion plant-based caps sold⁴

€40m invested⁵ in collection and recycling infrastructure

Commercial technology validation of polymer-based barrier replacing the aluminium layer in aseptic cartons in Japan and started testing a **fibre-based barrier**

1st product offering launched with **attributed recycled polymers**

4. Plant-based packages refer to packages made with plant-based plastic versus fossil-based plastic (external layer, lamination layer and internal layer).

5. In operational and capital expenditures.

People and communities

Ambition

Create positive social impact for employees and people across our value chain by providing a safe and inclusive work environment and securing responsible business practices.

Achievements

4% increase in the number of women in senior positions

61 million children received milk or other nutritious beverages through **school feeding programmes**

30,632 farms delivered milk to food and beverage manufacturers in **18 Dairy Hub projects**

1st company-wide **Mental Wellbeing Programme**
